

# Colorado Springs Utilities Watershed Access Plan

## Comment Form – January 26, 2010 – Due February 26, 2010

Colorado Springs Utilities has developed a “Concept Plan” that proposes appropriate recreational opportunities on local city owned watershed lands. This plan balances environmental constraints, operational needs, and desired recreational opportunities. This plan is intended to create an overall vision for the future of recreation on Colorado Springs Utilities watershed system lands. The next phase of this project will finalize recommended recreational uses, refine strategies and standards for projects, and propose ways to implement and monitor the recommended recreational uses.

### How Can You Help?

We are seeking your input to help understand the public’s opinion of the proposed plan and identify how the public expects the plan to be implemented. Please help us by providing your input on the following questions.

1. Please comment on the proposed Concept Plan including positive, neutral, and negative reactions.

---

---

---

---

---

---

2. Please provide comments and suggestions concerning funding the proposed recreation on Colorado Springs Utilities watershed lands.
